At M & B Graphics we do our own digitizing which means a lower cost for you and better quality control. We can take just about any graphic and make it stitch ready for your garment. Our embroidery system is self tensioning so our stitching is more consistent from garment to garment and with our 16 color machines there is no image we can't do.

The best way to keep your cost down is to provide a vector image file, like illustrator (eps, .ai). Pricing Does Not Include The garment.

Online Ordering system option

COLOR PRINTED VINYL: WALLS / VEHICLE WRAPS / PERFORATED WINDOW MATERIAL

Print and cut vinyl is a cost effective way to get color graphics on your vehicle, trade show display, wall, etc. We can wrap almost anything with it to look like whatever the project calls for. The process includes a laminate that is uv resistant and washable which gives the print a very long life and better edge resistance against damage.

We use a vinyl printing system that uses ink without Volatile Organic Compounds (VOC's), which means its healthier for our employees and you too. With excellent color output and flexible materials we can put our vinyls on just about anything.

ALUMINUM / POLYCARBONATE / ACRYLIC

Framed Alupanel w/Laminate

We offer Aluminum Panel, Polystyrene, Acrylic and Polycarbonate sign materials.

Aluminum panel is used for indoor/outdoor signage or custom displays and comes with a standard white finish. It's a 2 sided aluminum sheet with a plastic core. Pricing is for directly printing to the sheet which is great for indoor graphics and short term outdoor signage. We also offer a laminated vinyl graphic which improves durability and is a must for outdoor long term signage (sample picture on the left with laminated vinyl and frame).

Acrylic and Poly are used mostly for backlit signage and come in clear and white. Clear material requires a white laminated lightbox vinyl sticker that is printed and applied to the substrate. This allows the light to pass through and illuminate the sign. Standard pricing below for Acrylic and Poly is with a laminated sticker. We can also use the white acrylic or poly and place cut out graphics onto it, ask about pricing if that is the process you are looking for.
